M.D., M.Ch., Nephrology,
Kidney Institute, Kerala

St. George Charitable Dialysis Center

Our Mission

To promote good Kidney Health Care through education and support. We are committed to provide high quality treatment at low cost to the needy by offering free or subsidized Renal Dialysis at Puthupadi, a spot easily accessible to the rural population of Kozhikode and Wyanad districts.

Our Vision

To save and improve the lives of people affected by Kidney Diseases. To ensure that no Kidney patient will suffer due to lack of funds and or lack of available Kidney dialysis Facilities.

Our History

The concept of the Charitable Dialysis Center emerged from the need for dialysis facilities for a vast number of rural patients with renal failure. As we know, these patients are unable to afford the huge cost incurred in renal replacement therapy for a sustained life. It is pathetic that even in the modern era, this facility is made available mainly in cities, thus depriving the poor and weak of their livelihood.

In our endeavour to provide free or subsidised dialysis facilities to the rural people of Malabar, we identified ourselves with the charitable and missionary work carried out by the Puthupadi Ashram, founded by Sabha Patram H.G.Dr.Geovarghese Mar Osthathios whose only mission in life was "service to the needy". We are fortunate enough to be associated with Vallya Bava H.H. Baselios Marthoma Didymus 1, the then Metropolitan of the Malabar Diocese. We are proud that we continue to enjoy the favours and patronage of H.G. Dr. Zachariah Mar Theophilos, Metropolitan of Malabar diocese, H.G. Dr. Zachariah Mar Aprem, Metropolitan of Adoor & Kadambanad V.Rev.K.I.Philip Ramban of Puthupadi Ashram, St.George Charitable Clinic of St. George Orthodox Cathedral Kozhikode & MAR Baseliou Movement, Kuwait. With their immense support and benevolence we have commenced the Dialysis on 8th December 2013 & officially inaugurated by H.H. Baselios Marthoma Paulose II(Catholicose of the East & Malankara Metropolitan) on 24th February 2014.

This center is the first of its kind in the history of Malankara Orthodox Church and is one of the major project in commemoration of the catholicate centenary in Malabar Diocese.

Why Dialysis?

The human kidney filters the blood and prevents the accumulation of toxins in the body. When kidney fails, toxins are accumulated resulting in a condition called renal failure. The patients suffer from severe tiredness and weakness associated with low blood levels and high blood pressure resulting in chronic debility and finally death. The primary modality of support is to prevent the accumulation of this toxin, using an external means called 'Renal Dialysis'. The number of patients requiring dialysis is growing at a alarming rate and very few of them can afford to get into a successful transplant programme. Many of the patients are forced to depend on regular and long term dialysis.

The cost of dialysis varies from ₹ 800/- to ₹ 1500/- per session. On an average a renal failure patient needs 2 to 3 sessions per week. Most of the dialysis centres are attached to major hospitals in urban areas. The patients from the rural areas have to travel to and fro for their treatment twice or thrice a week incurring physical and monetary strain. This results in a number of patients withdrawing from the system and resigning themselves to lifetime misery and woes.

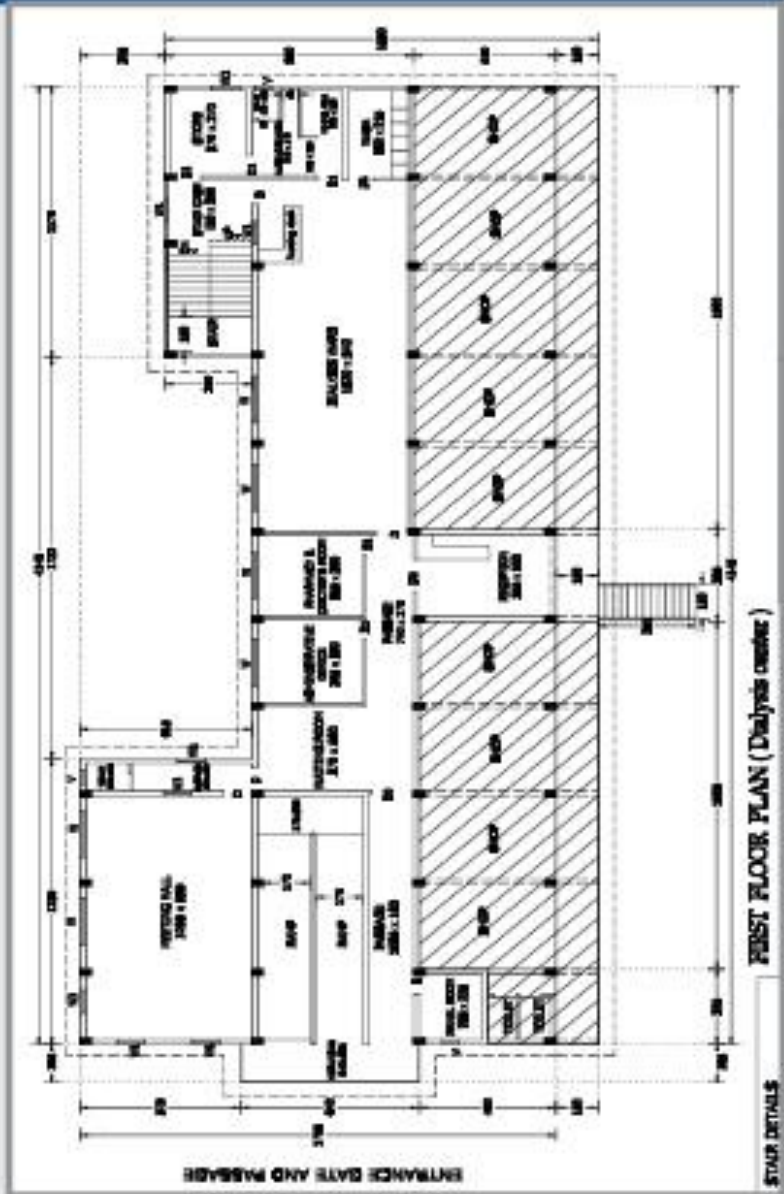

Under the expert supervision of the speciality doctors of St George Charitable clinic and assisted by the local medical personnel, we give free or subsidized dialysis facility to deserving patients. Once the need for dialysis is over or when they go on to the transplant programme the patients will be referred back to their respective Nephrologists for care.

The centre is established over 4000sq. feet area building, situated in 1.5 acres of land. We have started the centre initially with 10 dialysis machines each costing ₹ 7 Lakhs. The project cost us around ₹ 2 Crores. The cost of running the center is estimated to be around ₹1 Cr per year. Though a large sum, we are confident that with the Grace of God we would be able to run the centre successfully and smoothly.

For more information about the center please refer our website www.stgeorgemedicalmission.org

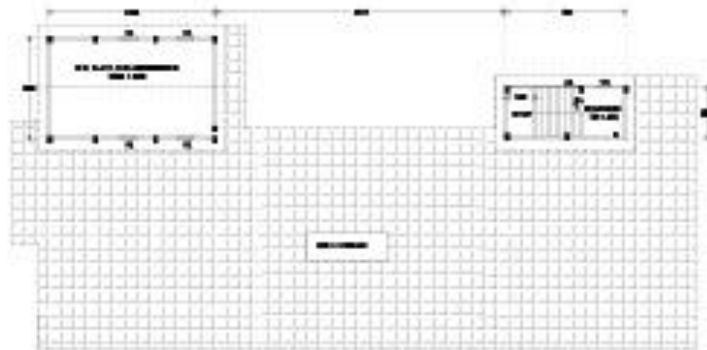

Your Prayers benevolence and whole-hearted support is solicited
